

# Skilled Nursing Facility Newsletter

July 2017

KentuckyOne Health Partners  
KentuckyOne Health®

## Thank you for your partnership!

We appreciate the partnerships we have made over the years, especially with the skilled nursing facilities. Partnering with local skilled nursing facilities helps connect our patients with the highest quality care. Our partnerships are with facilities who have the best quality outcomes, good CMS star ratings, and positive patient reviews. We want the best for our patients so we only partner with the best.

When KentuckyOne Health Partners (KHP) patients are discharged home from your facility, rest assured that an outpatient care coordinator will do a post discharge follow up call. This call can help address many of the issues that patients face in the transition back to home such as medication concerns, physician follow up, transportation, and help at home. Patients occasionally overestimate their abilities to manage things at home, but with a post discharge follow up call, intervention can be made timely and prevent hospital readmission or other adverse events to the patient.

## NextGen 3 Day Waiver Reminders:

- Email KHP when you have a referral that needs to use the waiver at [KHP\\_Nextgenwaiverlou@kentuckyonehealth.org](mailto:KHP_Nextgenwaiverlou@kentuckyonehealth.org).
- CMS requires certain information on NextGen waiver patients. See attachment for requirements.
- We plan to introduce the NextGen waiver to our KentuckyOne Health Primary Care offices soon which may bring additional referrals.

## Did you know?

KHP is the state's largest and most successful accountable care organization. We have recently achieved Elite 5-Star status from CAPG, the nation's leading professional association for accountable physician groups. KHP is one of only 87 organizations nationally to achieve the coveted Elite honor in 2017. This recognition, along with recent qualification as an Advanced Alternative Payment Model (Advanced APM), comes as the organization is celebrating its 5th anniversary.

For more information, call KHP at **1.877.543.5768** or visit our website at [KentuckyOneHealthPartners.org](http://KentuckyOneHealthPartners.org).
